

## INFO-Tracker™ Web Portal

Optimizing the business of property management...online.

INFO-Tracker™ Web Portal is a flexible and interactive community website that helps property managers streamline operations and transactions between the back office and frontline staff, as well as connect with residents and tenants, unit and building owners, boards of directors and business partners.

By providing value-added services and conveniences to staff and business partners, INFO-Tracker Web Portal increases customer satisfaction and retention and enhances service delivery, while increasing organizational productivity and profitability.

Netintegrity's web portal is designed for mid- to large-size property management corporations and is an optional add-on to INFO-Tracker. The web portal is designed to help property management businesses connect in today's marketplace, deliver increased productivity and improve communications.

### Be progressive, productive and profitable with Info-Tracker™ Web Portal

### **Why Netintegrity?**

Netintegrity is a leading developer of integrated property and maintenance management software. Netintegrity's INFO-Tracker™ and INFO-Tracker™ Web Portal incorporate industry sector specific tools for both frontline staff and management and is the solution of choice for many North American organizations - based on functionality, cost, ease-of-use and flexibility. Netintegrity's loyal customer base, across the property management industry, has come to rely on the increased efficiency, productivity and profitability enabled by sector specific INFO-Tracker solutions, which provide users with the ability to personalize their application usage and gain access anywhere, anytime. Netintegrity delivers superior implementation services, training and customer support, and incorporates customer feedback into research and development to ensure its technology reflects the capabilities, business rules and processes customers need to manage their daily business.
