

Netintegrity

Optimizing the business of property management.

Industry-leading property and maintenance management software

For more than 15 years, Netintegrity has led the development of integrated property, maintenance and asset management software. Netintegrity's INFO-Tracker™ incorporates industry sector specific tools for both frontline staff and management, and is the solution of choice for many North American organizations - based on features, cost, ease-of-use and flexibility. Netintegrity delivers turnkey software and services solutions, along with flexible training and customer support.

Netintegrity's loyal customer base, across the property management industry, has come to rely on the increased efficiency, productivity and profitability enabled by INFO-Tracker. With customized sector specific solutions, INFO-Tracker provides users with the ability to personalize their applications and gain access anywhere, anytime.

Unparalleled service and support

Netintegrity stands apart from the competition by delivering superior customer service and support and by incorporating customer feedback into research and development, ensuring the software's capabilities, business rules and processes give customers the functionality they need to manage their businesses.

Netintegrity provides clients with a one-stop shop for implementation services, onsite and offsite training programs, as well as ongoing product enhancements. To ensure complete satisfaction, Netintegrity provides free first year support and upgrades to new INFO-Tracker customers.

With domain expertise in property and financial management, IT and customer service, the experienced professional services team at Netintegrity strives to be the best in the industry, providing reliable, efficient and comprehensive services to help its clients run their businesses optimally.
